

If the plans of Charles J. Hannah carry through, a Bohemian colony will be planted on a 1,000-acre tract in the delta west of Stockton.

D. Taylor of Williams, Colusa County, will begin shipping cantaloupes to the eastern markets from his 200-acre field of melons in a short time.

The employment of an expert entomologist, A. D. Borden, to work on pests and pest control in the orchards in Sebastopol is one of the important undertakings this year of the Gold Ridge district.

Mexico as a vast potential market for Kern county's crop of Thompson Seedless grapes has been presented to the directors of the chamber of commerce, who, it is reported, are endeavoring to find means of introducing the fruit to the republic across the Rio Grande.

This has been the most disappointing year the Redlands apricot growers have had for a long time. Lee Yount, big grower of this district, said that the early promise for the crop was excellent, but that much fruit fell from the trees, some failed to mature and that which did mature was pitted and sunburned.

Quick and efficient work on the part of the employees of the Glenn-Colusa Irrigation District at Willows, saved what seemed certain to result in a loss of thousands of dollars to the rice farmers of the district by stopping a serious washout that developed under the pumps at the main pumping plant near Hamilton City.

M. R. Vivial, one of the best known growers of the Redlands citrus district, who for many years has been working on experiments to develop a "navel" orange that is not only without seeds but also without the navel, reports that he believes success is in sight. He states that he has developed a tree with fruit that is perfect in shape and quality. It will be called the Vivial navel orange tree, he says.

The field of rice on the Onstott ranch, north of Gridley, is heading out strong. This is the earliest date for rice heading in the history of Butte county rice growing. The variety is known as 1600 and is a variety that ripens about a month to six weeks later than other varieties. The rice plantation has evoked considerable interest and is visited daily by a large number of agriculturists from nearby sections.

A total pack of 96,000 cases, said to be the largest single pack of ripe olives put up in California, is the record established by the Lindsay Ripe Olive Company, at Lindsay, which has recently discontinued operations for the season. The company is carrying over several hundred tons of fresh olives in holding tanks, and these will be processed and canned in the early fall.

The entire Valencia orange crop of the Redlands district has not been picked and shipped yet, for some growers are holding their fruit until fall when the markets are not well supplied and the price is usually very steady. Most of the crop here has been picked. The total shipments for Redlands are now well over the 4500-car mark and it is expected that the total shipments will pass 4800 cars this year.

In February, 1922, Mr. and Mrs. Leon B. Harrington bought five acres of land a mile east of Chico and began work on a plant for pedigreed White Leghorns. During the past season they have studmated 200 hens with trapnest records of from 200 up to 287 eggs to seven males from dams registering from 240 to 300 eggs in a year. Mr. Harrington mates the hen immediately after her release from the trapnest and at no other time. Every bird in the Harrington breeding pens is certified by Farm Bureau inspection. Vigor is obtained by ranging the chicks on clean ground planted to alfalfa, the young stock being housed in portable buildings.

L. M. Knapp has fifty-three acres in watermelons three miles east of McFarland, from which he has shipped eleven cars and expects to ship twenty more. Prices have been good so far. His varieties are Sweethearts, Florida Favorites, Klondikes and Angelinos.

Two weeks earlier than usual, the peach crop harvest began last week in the Woodland district. Elberta peaches are being shipped East from Winters by the trainloads. Knocking of almonds also has started two weeks before the normal time.

Golden State

News of Interest to All

More than \$150,000 is to be spent by the A. D. Porter estate heirs in modernizing the Byrns hotel building at Woodland.

Commodore P. Murray, 73, prominent resident of Three Rivers, and the first white child born in Tulare county, died recently.

A 2,000 pound sunfish caught in Catalina waters by Zane Grey, the novelist, has been mounted for scientific purposes.

Premiums totalling \$14,000 will be awarded to winning exhibitors in the various departments of the Stanislaus County Fair at Modesto, September 13 to 18.

A high pressure water system to combat with the fire menace, with a steam pumping engine on the banks of the Russian river, is being installed near Guerneville.

Playground equipment for the new Exeter kiddies' park, the first in the city, has been donated by the Exeter American Legion Post working with the Women's auxiliary.

John H. Espey, one of the earliest settlers in northwestern California, is dead at the age of 87. He had resided in Sonoma county for more than 60 years. His parents came across the plains in 1849.

The California State Highway Commission has filed suit to condemn land owners by Clark Burnham between Truckee and Tahoe City, claimed to be necessary for the state highway leading into Lake Tahoe from the Victory highway.

Several buildings belonging to a mining company near Mariposa were destroyed recently by a range fire which swept within a few miles of Coulterville before being placed under control by the concerted efforts of residents of the town.

The Hanford Board of Trade at Hanford, has taken up the movement for having all fruit shipped from local packing plants carry the label, Grown in Kings County, and has sent a letter making a request that all shippers see that such labels are used.

The largest local conference of Seventh Day Adventists in the world will be held at Glendale, August 26 to September 5, inclusive, according to an announcement made by President O. O. Bernstein. Erection of a pavilion to seat 6500 delegates and the pitching of 625 tents will be started immediately.

The "vanishing American" isn't vanishing at all, in California at least. It was disclosed by L. E. Ross, chief of state bureau of vital statistics. Due to excess of births over deaths, Ross declared that Indian population of the state is increasing at rate of 100 redmen per year. California Indians now number 17,870, Ross said.

One hundred and forty-four purebred ewes and rams were cremated, and other property of the total value of \$20,000 was destroyed in a fire which swept the Jadanasso tract north of Esparto, Yolo county, eighteen miles from Woodland. The fire started from a harvester working on a small tract of grain which was also destroyed.

The June bride crop for 1926 totaled 6,750, breaking all previous California records for the month of romances, it has been revealed by L. E. Ross, director of the state bureau of vital statistics. The marriage total last month broke Ross' preliminary estimate of Dan Cupid's activities by 260 and shattered the existing record, which was 6,412 weddings in June, 1925.

If poor handwriting is a sign of genius, as the popular saying has it, California is just now nurturing a generation of remarkable boys and girls. A. C. Olney, state commissioner of secondary schools, announced that examination of 500 pupils in representative high schools produced an average of only 53.2 per cent in penmanship. The test requirement was 62 per cent.

Twelve tomatoes that fill a cantaloupe crate and weigh fifteen pounds is a record that has been achieved by F. D. Brown of Bakersfield. They are without flaws or blemishes, having at no time suffered from the blight that has affected other tomatoes of the country. They were grown in a small plot in his backyard where he daily gathers three gallon bucketfuls from eight or ten plants. The seeds, are of a special variety.

C. E. Berry, Santa Barbara county horticultural inspector, is conceding the bitter taste of squirrel poison strychnine with soda, and adds starch, syrup and glycerine. It is reported that the ground squirrels have grown wise, and that whenever they detect the characteristic flavor of the poison they fill up on green stuff instead of seeking water. Drinking water after eating strychnine is fatal, but with the vegetable feed afterward, the rodents are said to survive.

GOVERNOR AND AUTOISTST OPEN ALL-YEAR ROAD

Headed by Governor Richardson, a cavalcade of 500 or more motor cars carrying close to 2000 motorists moved over the new Briceburg-El Portal highway into this scenic wonderland Sunday. The new highway, built by convict labor, has been some four years in building and joins the Yosemite valley and the outside world with a new all-year motorway that is destined to be one of the most popular units in the State road system. The motoring public will be well repaid for their waiting, as the road is not only a highly scenic path, but is also a skilled bit of engineering work and it is quite likely to eliminate successfully the high mountain passes into the reserve that have always been the bugbear for timid drivers.

The July term federal grand jury was impaneled in San Francisco on the twenty-sixth of the month and held its first session the same day. The jury was called a week early to hear important evidence presented by Assistant United States Attorney General Mabel Walker Willebrandt. During her present visit to the coast Mrs. Willebrandt has held a series of conferences with United States District Attorney George J. Hatfield on prohibition enforcement. According to Mrs. Willebrandt the government's law enforcement personnel will be strengthened by weeding out those unfitted by previous training for law enforcement work; and when men fitted by character and given adequate previous training are secured the Volstead Act can and will be successfully enforced.

A. B. B. Deming, proprietor of an abstract company with offices in the Placer county court house claims the distinction of walking a distance equal to the circumference of the earth during trips to and from his office during the past 32 years. Deming, who lives on Aeolia Heights, estimates that he has walked the round trip an average of 400 times each year, which would make a total of 25,600 miles in the 32 years.

Now comes a book asking California school children to puzzle over the high cost of good radio sets, the speeds of various automobiles and how far the mighty Babe Ruth can hit a baseball. Holding that modern youngsters of school age are tired of working arithmetic problems dealing with the dull doings of A and B and the distance between Y and Z, textbook publishers have asked the State Board of Education to approve questions of a snappier nature.

The trustees of the Galt Joint Union High School have called for a bond election for the purpose of issuing and selling bonds to the amount of \$100,000, to be used in reconstruction of the high school, which was completely destroyed by fire two years ago. The election for the sale of bonds has been voted upon several times, but each time has failed to carry.

Plans and specifications for the new mammoth Pacific Fruit Express plant which is to be built at Antelope, about four miles south of Roseville, are now being prepared by company engineers. A contract for \$1,500,000 for steel used in the new plant was recently let to a San Francisco firm. The new plant will number about twenty-five buildings, some of which will be 600 feet in length.

More peaches will be harvested in the Yuba Valley this year than ever before, according to reports coming in from the various orchards. All peaches have borne well this year, the early peaches exceptionally well and now the J. H. Hales are doing their bit to swell the total. The late peaches also give promise of a large yield.

Congressman Clarence F. Lea will open the Western Sonoma-Marin Cattle Show at Valley Ford August 13. Lea will talk on legislative matters affecting farmers and will also show the part cattle have played in the development of this part of the state. The show will be continued for three days.

Yuba county made a net gain of \$237,625 in the assessment rolls for 1926 over 1925 it was shown in the annual report filed by County Assessor Tom E. Bavan. The total roll of the county shows \$15,608,745. The gain in personal property assessments over 1925 is \$27,715.

Warning sportsmen of the state that overfishing is exterminating steelhead trout in the streams of California, Dr. David Starr Jordan, chancellor emeritus of Stanford University, delivered a plea for conservation of the state's resources of wild life at a public meeting of the Monterey county chapter of the Isaac Walton League of America last week.

A double execution at San Quentin penitentiary on October 8 has been announced by Warden Frank J. Smith. Two men, both convicted of murder in Los Angeles county, are to satisfy the law by hanging.

CONG. A. M. FREE

CONG. A. M. FREE SEEKS 4TH. TERM

The Congress of the United States should be treated by the people as a great business organization. This Government is the greatest individual business in the country. It handles billions of dollars a year and the Congress is the power that raises the money to cover these expenditures and directs its application. Every organization should select those who handle its business on the basis of capacity of its representatives and experience in the work. It costs money to train those who handle any great business and it is therefore important that capable men are selected and that changes are only made when absolutely necessary.

The people of the 8th Congressional District are called upon to elect a Congressman this year. Congressman A. M. Free is now serving his third term. He has demonstrated by his accomplishments up to this time that he is a capable and efficient public servant. He has been in the work long enough not only to familiarize himself with it, but to enable him to do it more expeditiously and effectively than any new man could do. His work during his term of service has brought him into close contact with the President, with Secretary of Commerce Hoover and with the other heads of the Government and he is able to accomplish results that new man could not accomplish until he had years of experience in the work.

The voters of this district may be interested to know that in addition to the prominent part Congressman Free has taken in the general legislation considered by the House of Representatives he has been able to do the following important things that particularly affect this district and California:

Secured special appropriation of \$100,000 to protect California forests from fire.

Secured a survey of the lower San Francisco Bay preliminary to development of these waters.

Secured appropriation for the study of precooling and shipping of fresh fruits.

Secured repair of breakfast at Port San Luis Obispo.

Secured right of way through Presidio at Monterey to take care of growing traffic.

Secured hearing on the question of the tariff on canned tomatoes.

Succeeded in having the quarantine against nursery stock infected with pests sustained and exposed the use of foreign money in the United States to break down this quarantine.

Secured a survey of Ventura harbor.

Put through many pensions for Civil War Veterans and widows and handled a great number of compensation cases of World War Veterans—besides many matters of a private nature for individuals having claims against the government.

He is a member of the following committees of the House:

1. Merchant Marine and Fisheries, which handles all shipping, marine, fish and radio legislation.

2. Immigration and Naturalization.

3. Mines and Mining.

4. Election of President and Vice President.

He is Chairman of the sub-committee on Navigation laws, and is ranking Republican on the sub-committee on Radio.

No representative that this district has ever had has done more real,

CARY TELLS OF TRIP TO ORIENT

D. Harold Cramer acted as chairman at Kiwanis luncheon Wednesday in the absence of George Washington Burrows.

Mrs. Ralph Hyde, whose charming music has pleased many audiences here and elsewhere, sang two solos accompanied by Mrs. G. S. Robson at the piano. Charles Cary of Palo Alto gave an interesting and enlightening talk on his recent trip in the Orient and India.

He remarked on the pleasing courtesy of the Japanese and their intensified cultivation of both fields and forests from which this country could learn much. The evidence of government is everywhere as contracted with China where there is little or no sign of authority.

In the Philippines, United States has done much to educate the populace, and there are many there who do not desire independence of United States, India, with its caste system has given England a more difficult educational problem and the college bred man has become in some cases rather an agitator than an uplift and blessing to his less fortunate countrymen.

R. Alison announced that Judge O'Connor will be the speaker of the hour next week.

At a luncheon given at the Y. W. C. A. yesterday for Josephine Rand Rogers, Miss Lillian Palmer organizer of the Professional and Business Women of San Francisco was the principal speaker.

SCHOOL ADDITION WELL STARTED

Work on the rooms being added to the Campbell Union Grammar School is progressing rapidly. These rooms are being built on the west side of the east wing and will fill a great need as this last year classes were being held in various places not designed for school rooms.

The school population of this district has increased by leaps and bounds, as new comers are attracted to our community on account of our fine school facilities, together with our delightful climate and other desirable features.

MANWEILER-HOLMES

Beatrice Manweiler and Harvey Holmes were very quietly married Monday evening by Rev. J. J. Pardee at his home on Sunnyoaks Avenue.

Mrs. Holmes is a sister of Mrs. Lottie Holmes and Harvey Holmes is a son of Mrs. Lydia Holmes. He is chief mechanic in the Geo. E. Hyde and Co. plant and has made his home in Campbell the greater part of his life.

Friends of the contracting parts extend best wishes for their future.

OLD LANDMARK TO BE MOVED

The C. N. Cooper house on the corner of Campbell and Central Avenues is to be moved in the very near future to the lot adjoining the Congregational Church, which Mr. Cutting purchased from W. E. Eckles. Mrs. Cooper will be with her son at Oakland during the moving process.

This will leave a very desirable business lot 75x115 feet, which will probably soon be seized upon by some forward looking investor.

Tennis Rackets at Smith's.

downtight constructive work in behalf of his people. Mr. Free stands on his record. He has made good. He deserves another term. Re-elect him.

TAXATION PROBLEM MASS MEET MONDAY

"Next Monday at ten o'clock the board of supervisors invite everybody who is interested in taxation to come and sit in with us and consider proposed plans of financing the necessary new county buildings," said Al Hubbard at the Consolidated meeting held amongst the live oak trees of Bernal's ranch near Morgan Hill on Tuesday.

"All road building and public improvements of any kind in Santa Clara County have been paid by the regular tax. This County has the smallest bonded indebtedness of any County in the State," continued Hubbard.

"The board wishes to know how the people want the new county buildings financed. Is it to be by direct taxation or by the raising of bonds. There is no question in anybody's mind as to whether we need new county buildings or not. We wish to know how you want them financed and to this end we are urging you to attend the regular meeting of the board next Monday at ten o'clock.

Henry Hecker also discussed the proposed new county buildings.

The Gilroy and Morgan Hill Chambers of Commerce were hosts to Consolidated. President Thomas presided and G. E. Farley of the Campbell chamber acted as secretary.

Prune week this fall will be held under the direction of Consolidated and it is estimated that 20,000 five pound boxes will be distributed to easterners. W. F. Powers of San Jose is Chairman, W. M. Denhart of Los Altos, F. C. Staniford of Gilroy, Ray Smith Palo Alto, G. E. Farley of Campbell, J. M. Gillogly of Sunnyvale, and H. S. Hostetter of Los Gatos are the members of this committee.

The report on the entertainment of the members of the National Editorial Association was made by Chairman Denhart. The distribution of the county booklet was discussed and Ray Smith, S. N. Hedegard, and F. C. Staniford were appointed as a committee to settle whether a national agency was to be used or not.

The work of the California Development Association was discussed by William Corbin of San Francisco. The work that organization has done during the past years in aiding the farmers and orchardists was outlined. G. E. Farley of Campbell, Chas. L. Snyder of San Jose and Alonzo Baker of Mountain View were appointed as a committee to confer as regards aiding the association.

A vote of thanks was extended Gilroy and Morgan Hill Chambers of Commerce for their hospitable entertainment of Consolidated.

The meeting will be held September 7th at Campbell.

Those present were: S. H. Hedegard and G. E. Farley of Campbell; Maurice J. Byres, F. O. Staniford, Mrs. Staniford, E. J. Chesbro, J. Kirkpatrick, John N. Hall and Henry Hecker of Gilroy; W. N. Denhart of Los Altos; R. T. Liston of Morgan Hill; A. L. Hubbard. Robert Chandler, Wendell Thomas, Fred Lewis Foster and Russell Pettit of San Jose; Mrs. L. N. Scott and Mrs. and Mr. Luther Cunningham of Saratoga; W. K. Roberts and Ethel H. Roberts, Mr. and Mrs. J. M. Gillogly of Sunnyvale, William Corbin of San Francisco representing the California Development Association.

Off for New York

Ye editor is in receipt of a card from Kenneth Harris, son of Mr. and Mrs. J. M. Harris, stating that he was leaving this week on the S. S. Pennsylvania for New York. He is working with Mr. Hunt, of the Pathe Film Corporation and they will take pictures of the Panama Canal. He says that he is enjoying the work immensely.

Campbell Service Station

P. G. & E. Plans New Power Lines

Engineers of the Pacific Gas and Electric Company have completed surveys for an extension of power lines four miles south of here to serve 26 applicants on the Santa Cruz highway, involving an expenditure of \$24,570.00. J. D. Kuster, Division Manager of the Company states that this is one of the biggest extensions contemplated in this section for some time and indicates the type of development now going on. The new line will serve 26 applicants, including Edgemant Lodge, Idylwild Inn, Stumble Inn, and others in this vicinity. As soon as negotiations are completed with prospective consumers work will be started.

Individual birthday greeting cards—Smith's Stationery Store.

One of the largest grape contracts of the season was completed recently between the Shepard Fruit Company at Sebastopol and J. B. Fopplano, and others, whereby the last named agrees to sell and deliver 400 tons of juice grapes of the 1926 crop to the company. It is understood that the price was in the neighborhood of \$65 a ton. Half the price agreed upon was paid at the time of the making of the contract.

A warning has been issued by the Tulare county horticultural commissioner, to grape growers and shippers, who send by truck to Los Angeles and San Francisco, that careful inspection of the product to insure against shipment of immature grapes will work to the distinct advantage of every one concerned.

The delivery in Portland of 60,000 pounds of Sonoma and Mendocino county hops is called for in two contracts filed in the recorder's office, Santa Rosa.

Master Stroke of Consolidated.—The Santa Clara County Consolidated proved beyond question its right to existence last Thursday when it acted as hosts to the visiting members of the National Editorial Association. The entertainment of the visiting editors had been carefully planned by a committee of the Consolidated and it was a unqualified success. So much so, that a woman speaker at the banquet expressed the sentiment of the visitors when she said: "When we leave here we will feel like Adam and Eve felt when they were expelled from the Garden of Eden." The visit through the famous Santa Clara Valley was the crowning glory of the trip of editors and a fitting ending of what was the most successful and most enjoyable convention in the history of the association. The Santa Clara Consolidated was the proper organization to act as entertainers of these visitors, for it represented every Chamber of Commerce in the county, and thus the entire county. It would be a good plan to have this organization act as the official host of all important organizations coming to the county in the future. The present of the Consolidated, Wendell Thomas, and the committee certainly deserve the commendation of all our citizens.

POLITICAL COMPLEXION CHANGES

The Los Angeles Times, in jocular vein but half meaning it, says that Brookhart was nominated because most of the Iowa farmers are in California. If that is true it looks as though the Golden State is in for some conservative voting this fall.

COSTLY JOBS

Senator Neely, of West Virginia, proposes to disqualify any Senator who spends more than \$10,000 to get elected. That's right. One year's salary is enough to spend to get any job. We have often heard of complaints against employment bureaus that charged as much as the first month's salary as commission for securing a place for a laborer. Surely the people's laborers should not be required to pay such a high price for honor and the chance to serve.

PROVEN VALUES

Thirty years ago, or even half as many, few people dreamed of the wonderful system of highways that the country now has. Of the thousands of miles of gravel and hard-surface roads on which one may travel in comfort, perhaps not one improved mile has ever been regretted. Is not this a lesson to all of us of the great value of permanent improvements?

Marking the opening of a new era in Yosemite motoring, the Merced-EI Portal link of the park highway was dedicated at Clark's mill, Mariposa county, Saturday, July 31. In the presence of high state and automobile officials, the road, built by the efforts largely of 400 San Quentin and Folsom convicts was opened for use.

Plans are on way for a two-story and basement fireproof club building for Alameda County American Legion. It is to be erected in Adams Park, between Grand avenue and Harrison street, Oakland, and will cost approximately \$200,000.

Nearly seven thousand persons were killed or injured by automobiles in this state during the first six months of 1926. This was revealed in a report issued by the State Division of Motor Vehicles, showing 699 killed and 6,282 injured during the half year period. Of the injured, 1,968 were classified as "seriously injured or crippled." More than fifty of the dead were victims of hit-and-run drivers. The metropolitan districts, as usual, had the heaviest percentage of accidents. Los Angeles and San Francisco alone reported 159 deaths.

Discovery of the fossil remains of what is said to be a pre-historic mammal approximately 25 feet long has been made on a ranch near Elk Grove, south of Sacramento, according to a statement by C. E. Swisher, owner of the property. The find was made following an explosion of dynamite 15 feet below the surface of the earth while Swisher was digging a pit for installation of an irrigation pump. The blast unearthed a fossil segment 6 feet 4 inches long and said to have carried the toes of an ancient monster.

Charles King, Hanford, Kings county, builder of Tulare Lake Railway and one of the best informed men in Kings county on the resources of the Tulare Lake Basin, is engaged in arranging the transportation of this season's crops, and says that in his opinion the total yield of grain in the lake bottom lands this year will approximate 500,000 sacks, of which all but about 40,000 will have been grown on lands under well irrigation. Of the total crop about 80 per cent will be wheat.

It is said that there are 28 ways of pronouncing Los Angeles, (which includes Hollywood in its official environs) and all of them are wrong. Here is the 29th, which is correct: "Law, single us." Law, as in court; single, as in youth; us, as in matrimony.

Melons are moving to market from Tulare county points in real earnest now, there being nearly 1,000 acres of canteloupes alone in the district stretching south from Tipton. Shipments have been under way for ten days but straggled along for the first week getting a real start just a few days ago. The crop this season is of excellent quality, both as to water-melons and canteloupes. The market conditions have been first class and there is excellent reason to believe that the prices will be reasonably maintained, even though the Turlock melon crop is now in and will have an effect on the market.

With the lamb shipping season practically over, figures furnished by the railroad company estimate that approximately 55,000 lambs were shipped from Glenn county this season. The total shipments from California have been given as 167,000 and were made during the period of April 15 to July 1. For the past three seasons sheepmen have netted highly remunerative results from spring lambs. The price this year has ranged as high as \$11.50 per head and the average has been about \$9. It is said that this year's lamb crop will yield the sheepmen of the state approximately \$1,800,000.

The recent annual meeting of the Poultry Producers of Central California at Petaluma, was the ninth for the producers who have been marketing their eggs cooperatively, as operations were begun in 1917 with 1,000,000 hens. Now the association controls the product of 2,890,253 hens, owned by the 2,392 members. Receipts of eggs for the year amounted to 782,070 cases, an increase of 154,593 over 1924. The aggregate amount advanced to members was \$8,080,062, which was \$2,017,528 more than 1924.

The California Rice Growers' Association has announced that only about 150,000 sacks of paddy rice of last year's production in this state remain unsold and an early disposition of the small hold-over is expected. Recent sales have realized around the \$4 mark. It is estimated that the acreage planted in California this year is about twice as large as that of last year. Owing to the long spell of hot weather the rice crops in the Sacramento Valley now indicate good yields.

The total number of church members of all denominations in the United States is 47,000,000, which would make quite a salvation army if they all worked together.

Saving for the Future

"Thatch your roof before rainy weather; dig your well before you become parched with thirst."—Chinese proverb.

The old adage is still applicable to modern conditions, and to prudent persons its meaning is clear. Start saving money in the days of your prosperity and in the uncertain years to come you may draw against the earnings of the present. Let the Mercantile Trust Company of California assist you in making the beginning. Accounts may be opened in modest sums. Four per cent interest compounded semi-annually materially lightens the effort of saving.

Town Tales

Tersely Told

Mrs. Vaudine Putnam Sanders went to Del Mar Sunday, where she has been the guest of friends.

The L. T. Lenox family who had been here during July returned to their summer home at Twin Lakes Saturday.

Mrs. Patience Caswell has gone to Medford and Diamond Lake, Oregon, with her son and daughter for a three weeks outing.

Mrs. T. A. Cutting who had been in attendance at the Congregational Conference at Asilomar last week, returned Monday.

The A. N. Lantz family, who have spent the past several weeks at their Capitola cottage returned to Campbell the first of the week.

Mr. and Mrs. N. C. Grizzle are receiving congratulations on the birth of a son, Monday. The young man weighed nine and a half pounds.

Mrs. Lulu Holmes Godwin returned to her home in Watsonville, Sunday. She was accompanied by her mother, Mrs. Lydia Holmes.

Mr. and Mrs. L. Genassi returned the first of the week from Richardson Springs, where Mr. Genassi was greatly benefitted by the mineral waters.

Judge and Mrs. M. D. Taylor of St. Paul, Minn., and Dr. and Mrs. Richards of Berkeley called upon their old friends, Mr. and Mrs. W. T. Alexander, Wednesday.

Mr. and Mrs. Warren French, accompanied by Mrs. Lena Rodeck and Miss Mary Rodeck went to Carmel Wednesday, where Mrs. Calvin Antrim and children are spending the summer.

Miss Valeria De Remer a former student and graduate of Campbell high school was renewing acquaintances in Campbell Tuesday. She is now in a law office in San Francisco.

Mr. and Mrs. C. B. Miracle returned Friday from their trip to Yellowstone Park and Mt. Ranier. Yesterday morning early they left for their reotage at Lake Tahoe and were accompanied by their niece, Miss Ila Hoerler.

Mr. and Mrs. J. H. Isham, who had been in Campbell for several weeks went to Richmond Saturday, where they expect to make their home. Their daughter, Mrs. Clare Bryant lives there which will make it very pleasant for them.

The many friends of Mrs. W. L. Morton will regret to hear that she has been taken to the hospital for treatment. She has suffered a great deal from stomach trouble for some time and her family hopes that she may be benefitted there.

Mrs. Frances Skoda of Miles City, Mont., was the guest of Mrs. C. T. Fawcett and Mrs. H. C. Smith from Saturday to Wednesday of this week. Mrs. Skoda is principal of one of the schools in Miles City and has been studying art in San Francisco this summer.

The work of paving Hamilton Avenue is well under way and the residents of that road are suffering the inconveniences that that always attend work of that character. But when the job is completed it will be of great benefit in lessening the traffic on other thoroughfares.

Full Gospel Services every Wednesday at 8:00 p. m. in the Odd Fellows Hall at Campbell. In fellowship with Upper Room Mission, 4th and San Antonio Streets, San Jose you are welcome which will make you wise come, come and hear the simple unto eternal life.

Rev. and Mrs. W. E. Eckles are in San Jose this week and Mr. Eckles will speak at the Congregational church Sunday morning. At the Conference which was held last week in Asilomar, Mr. Eckles was elected Assistant Superintendent of the Northern California Congregational Conference.

PRINCE OF SWEDEN

DEDICATES PARK

Among those who attended the dedication of the new Swedish recreation park and rest home in the Uvas Canyon last week were, Messrs J. L. Hagelin, O. Strom, J. E. Peterson, D. H. Cramer, Mr. and Mrs. C. L. Johnson and Misses Anna Hagelin, Marie Carlson. All met the Crown Prince and Princess. In dedicating this park the Prince gave it the name "Sweadal" for the Swedish Patriotic League of San Francisco to whom the tract belongs.

MOTORISTS FEES

OVER 5 MILLION

Sacramento, August 5—Will H. Marsh, chief of the division of motor vehicles today announced the semi-annual apportionment of registration fees paid by California motorists during the first six months of 1926, amounting to \$5,779,941.60 to the state highway commission and the various counties.

One-half of this amount or \$2,889,970.80 will go to the highway commission for maintenance and repair of state highways. The other half will go to the counties but \$251,352.98 will be used to pay the salaries of traffic officers six months past, and \$272,225.13 will be withheld, in accordance with a recent legislative act, to pay traffic officer's salaries for the coming six months.

The net apportionment for road purposes to the counties will therefore be \$2,366,392.69.

Although the salaries of the officers are deducted, Marsh stated this money finds its way back into the coffers of the cities and counties in fines imposed on violators arrested by the motorecycle men.

Los Angeles County will share greatest in the apportionment with a total of \$1,140,132.26 as more than one-third of the motor vehicles in the state are registered from that county.

The Share of Santa Clara County is \$2174.20, and the net appointment to the county is \$7744.20.

SPECIAL AWARDS

AT STATE FAIR

Sacramento, Aug. 5—In addition to the regular list of premium and medal awards at the State Fair September 4 to 11, the State Agricultural Society will give a gold medal to any exhibit of special merit, or which has a special industrial, artistic, or economic significance or value.

Sacramento, Aug. 5—Prizes of \$600 for car lots of Aberdeen-Angus steers and \$400 for car lots of lambs are additions to the premium list at the State Fair this year, September 4 to 11.

W. E. Whitney and family, who have been at Davis for the past month are again at Campbell. Mr. and Mrs. R. B. Hummel and John, who have been here during that time have returned to Berkeley.

With the announcement that the state has already purchased farms and homes worth \$10,557,883.28 for World War veterans, George M. Stout, secretary of the State Veterans Welfare Board, issued a statement stressing the need of ratifying the \$20,000,000 bond issue to continue this work. Present funds are exhausted, Stout said, in discussing the new bond measure which will appear on the November election ballot. Authorization of the bonds, permitting aid to some 17,000 former service men seeking homes, will involve no public expense, Stout explained, as they are retired when the veterans return to the state treasury the amounts allowed them for city property or agricultural lands.

Nine cows from the E. S. Hass ranch near Williams, produced over forty pounds per month. This is shown by the report of the County Cow Testing Association. This record is significant especially when three of the cows have been producing over twelve months, and are still up in the percentage column.

More than 200 cars of green fruit, freshly picked in northern and central California orchards, are speeding each night under special train orders to canning and packing plants in the San Francisco Bay district. J. T. Saunders, freight traffic manager of the Southern Pacific, announced.

The first carload of Tuscan peaches was shipped from Yuba City a short time ago by P. R. Zumwalt. This is the earliest shipment of Tuscan peaches in years and one of the earliest on record.

JOSEPH M. McKINNON AN-
NOUNCES CANDIDACY
FOR SUPERVISOR OF
FOURTH DISTRICT

During the last several months many of my friends and voters in the fourth supervisorial district have urged me to become a candidate for supervisor in that district. Among other reasons advanced for this request was the fact that, in the opinion of many, proper regard for the wishes of the people of the district had not been shown when the petition signed by more than 3000 voters, nearly half of the voters in the district, had been ignored in filling the vacancy caused by the death of John Roll. I have acceded to these requests and hereby announce my candidacy.

If elected I will owe my office solely to the voters of the district and will be obligated to no political boss or group.

I have lived in the fourth supervisorial district most of my life and believe that I know its needs, and the needs of Santa Clara county. During the campaign I shall try to get even better acquainted with the district and its people, and if elected, will spend my whole time in the performance of the duties of the office.

John Roll, as supervisor of the fourth district, acquired a state-wide reputation for the excellence of the roads in his district. It will be my earnest endeavor to keep in the same excellent condition, as I fully realize that not only the pleasure of the people but their prosperity and the value of their lands is largely dependent upon good roads permitting adequate and cheap transportation. I believe that we should give heed to the recommendation of several grand juries of the county, that a new jail be built, not only that the inmates may not be inhumanely treated but that the possibility of their escape shall be reduced to a minimum.

We should, I believe, also have a proper detention home for juvenile offenders, to prevent, if possible, such offenders from becoming hardened criminals.

Everyone who has had business to transact with our public officials realizes how antiquated our county buildings are without elevator service. This works a particular hardship upon the aged and infirm who are compelled to climb the long flights of steps to the court room of the probate department. This condition should be remedied by a new building, or by proper remodeling of the old.

I believe that Santa Clara county is entitled to the best and will try in every way to keep abreast of the times, but at all times my motto will be: "100 cents return for every tax dollar."

JOS. M. McKINNON.

Are You a Father?

By O. Lawrence Hawthorne

Are you the father of a boy—
A sturdy, playful little lad,
A restless bit of energy
Who tries so hard to be like dad?
Are you the father of a boy
Whose life just overflows with joy?

Are you the father of a girl—
A sweet, romantic little miss,
A dainty parcel of delight
Who runs to greet you with a kiss?
Are you the father of a girl
More precious than the choicest pearl?

You are a father, for I see
The father-spirit in your eyes
And in your face the tenderness
That such relation signifies;
Yours is the greatest gift that can
Enrich the life of any man!

So priceless is that child of yours,
So confident its faith in you,
That you must guard its happiness
With everything that you can do
To bless each day, and guarantee
Protection for the years to be.

Church Had Official Pretty Well "Bonded"

On account of protracted drought, Representative John Sharp Williams' ponds had gone dry. Young John was digging a well, trying to get water for his boilers. Black Cato was the well digger, besides being one of the joint treasurers of his church.

For the better part of the afternoon young John had noticed five other negro men loafing around the well, and finally asked them what they wanted.

"Us wants Cato to go to town wid us an' git our church money outen de bank, \$43."

"Cato's busy," John objected, "we've got to have water for this gin."

"Yas, suh; but us can't get our money widout Cato—all six of us is got to sign one check."

This wise precaution was made necessary by the defalcations of various church treasurers. So young John called Cato to climb out of the well, and said:

"Cato, these boys want to get their church money. Havy you got dat \$43 in de bank?"

"Yes, suh; de money's dere all right."

"Very good. Go in de store and make out your check. Then I'll give you de money on it, and you need not leave your work."

"But dat won't do, Mister John; dat won't do."

"Why not?"

"'Cause to git dis money out de bank, it takes six names on de check, an' six faces at de bank winder. Six names and six faces."—W. Orton Temson in the New York Evening Post.

SHE WAS TOO HUMAN

Hubby (an evolutionist)—I can't argue with you, it seems.
Wife (all het up)—No—I want you to understand you can't make a monkey out of me!

Managerial administration of the distribution system of Merced Irrigation District was endorsed strongly by the directors of Merced County Farm Bureau at Merced, under resolutions unanimously passed by its ten farm centers during the past two months. Reports made to the directors said that the referendum among 500 members resulted in unanimous approval of the one-man system in preference to a highly departmentalized machine as was proposed by the directors of the district itself. The results of the referendum will be submitted to the district by the irrigation and drainage committee of the farm bureau.

Ten thousand farmers in California are studying agriculture in 273 evening classes held in 20 high schools in various parts of the state, according to Ralph N. Brown, a graduate student at the University of California, who has just completed a study of the situation. The subjects considered include dairying, poultry production, horticulture, farm mechanics, soils and irrigation.

The Pacific Packing Company at Oakdale, opened recently for what promises to be the greatest run on peaches in the history of the local plant. Three hundred and fifty people are employed in the plant at this time, an increase of one hundred and fifty employees over former years.

The low prices paid for barley last season and the season before have prompted northern California ranchers to look forward to planting their land in other commodities which will probably bring higher prices.

Vegetable shipments out of the Santa Maria valley during the first six months of the year totaled 2487 cars, as against 3111 cars during the same period of 1925. Lettuce shipments show a decided gain with 1366 cars, as compared with 1022 last year.

The peppermint distillery on the Herman Vassier Ranch, near Woodville, Tulare County, is running full blast. It turned out about 300 pounds and it is expected it will be turning out about 200 pounds daily. There is a splendid crop on sixteen acres.

Unconditional Life Guarantee

Picture a city the size of Denver, Colorado, or Portland, Oregon, moving into northern California. Well, that's what happened last year. And yet, no one had to go without or wait for electric power.

Thru a progressive, effective and efficient development program, this company has electric energy, at low rates, available in advance of the needs of the territory served.

The people can always depend on this company to give a maximum service at a minimum cost.

"Nowhere is power so cheap as in California."

Since 1913 the cost of living increased 65% while the cost of electricity decreased.
